

Final Film Questions

For each question, explain your rationale (Assume that the question, Why?, follows each question.)

Are you more inclined to work with motion graphics, chroma key, or a combination thereof?

Having gone through a special effects unit whereby you learned on your own how to apply a specific special effects, do you see a use for the effect that you learned in your final film without it looking forced?

Are there other effects that your classmates chose which you might want to apply without it looking forced?

Are there a professional examples or combination of professional examples that you want to base your final video on?
