## Grade 9 Integrated Technologies Report: CO<sub>2</sub> Car (Revised November 15, 2010)

## Instructions

Having raced your CO<sub>2</sub> car, write a report on the process of investigating, creating, testing and modifying your design. The content of the report is the answer to a series of questions.

- Answer the questions on this sheet in rough.
- Rewrite the questions and your answers in paragraph form **on a separate sheet of paper**.
- Write a minimum of one paragraph to answer each question.

Describe your car's race.	* * 11dl	t skills did you learn and practise? Explain.
Describe your car's race.		
What advice would you give someone who is about to start this particular project. Explain.  Describe your car's race.  If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
Describe your car's race.		
	What	advice would you give someone who is about to start this particular project. Explain.
If given a chance to build another CO <sub>2</sub> What would you do differently next time?	Desc	ribe your car's race.
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
If given a chance to build another CO <sub>2</sub> What would you do differently next time?		
	If giv	en a chance to build another CO <sub>2</sub> What would you do differently next time?
