

Grade 10 Performance Task: Graphics Evaluation

Grade 10 Performance Task Evaluation	Level One	Level Two	Level Three	Level Four
Adobe Photoshop - Multilayered Image	10 11	12 13	14 15	16 18 20
<p>Integrity* of images are intact; No residue</p> <p>* Image integrity is how well the foreground image is cut out from its previous background. A good "cut" will have no residue background from the original background; a poor cut will have a little residue; a bad cut will have a lot of residue in the background.</p>				
Adobe Illustrator - Vector Image	10 11	12 13	14 15	16 18 20
<p>Appropriate number of anchor points used*; All lines between anchor points are curved; Image is sophisticated</p> <p>* An appropriate amount of anchor points means enough anchor points to create the detail of an image; and the fewest number of anchor points to create a contour</p>				
Adobe PhotoShop - Clipping Path	10 11	12 13	14 15	16 18 20
<p>Clipping path around the entire foreground image is accurate; All lines in between the anchor points are curved where necessary; Number of anchor point around the clipping path are minimal; Properly saved as a PhotoShop EPS image with 8 bit colour preview</p>				
Adobe Illustrator - Layout of Video Screen Announcement	10 11	12 13	14 15	16 18 20
<p>All text is legible from a distance; All text should be a sans-serif font; Written content is modified to contain only necessary information; Good composition of text and images - good use of positive and negative space</p> <p>All images are linked properly by File > Placing them in Illustrator</p>				
Adobe After Effects - Animated Video Screen Announcement	10 11	12 13	14 15	16 18 20
<p>All text is legible from a distance; All text should be a sans-serif font; Written content is modified to contain only necessary information; Good composition of text and images - good use of positive and negative space</p> <p>Motion graphics are used to attract and maintain one's attention*; Motion graphics do not distract from the overall message; Video is exported at its correct length - no extra; Video is properly exported as an mp4</p> <p>*Target length 30 to 60 seconds..... While chroma key video is not a requirement, you are welcome to use it, provided that it enhances the announcement and that you are meeting the due date expectations</p>
