

Skill Building Assignment TGV: Foley Sound

lastname_foley sound

You will be provided with a video whose audio was removed because it was inadequate. You are to record foley sound using the recording equipment provided to substitute the original sound in the video. It's up to you to what you use to record the necessary sound. All sound must be recorded by you and you may not use any sound clips from the internet or other sources. Make sure you are watching the video as you are recording so that you can get the timing right.

Submit the following

- The final exported video file exported as an mp4 with Vimeo preset.
- The Audition file so that the track and control of the tracks may be seen.
- The entire folder with the original sounds.

Credibility of Content (Thinking)

- You must have all the created media properly submitted to be properly evaluated in this area

Content (Thinking)	Level One	Level Two	Level Three	Level Four
	10 11	12 13	14 15	16 18 20
The created content* of the foley sound credibly matches the action in the video throughout the production				

* All content is original and recorded by you

Mix and Timing (Application)

- You must have all the created media properly submitted to be properly evaluated in this area

Mix and Timing (Application)	Level One	Level Two	Level Three	Level Four
	10 11	12 13	14 15	16 18 20
Timing of the audio accurately coincides with video action; The use of the software to control the mix of the audio enhances the overall mood of scene
